

The LaSalle County Soil and Water Conservation District is again sponsoring **SOIL and WATER STEWARDSHIP WEEK – April 27 to May 4, 2008**. This is a nationwide observance for all counties in the United States sponsored by the Soil and Water Conservation Districts at the local level.

The purpose of Soil Stewardship Week is to create a larger awareness of our responsibilities for stewardship of the natural resources that sustain us. Stewardship also provides an opportunity to focus on the resources of a given area. LaSalle County is certainly rich in many natural resources.

This year's theme is "***Water is Life***". Materials available include church programs, litanies, program inserts, activity books, bookmarks, posters, and place mats. Materials you choose are **free of charge** to your church. **Please limit quantities to what you will use on Soil and Water Stewardship Sunday**. If you are interested in using any of these materials, please return the enclosed order form to our office with the quantity you will need by **Friday, March 14, 2008**. We will order the materials you requested and notify you when they are available for **your pick up**. **Please do not order materials unless you intend to pick them up and use them**. A sample packet of materials is available for you to preview may viewed at <http://www.stewardshipweek.com>.

Conservation efforts should reach the needs of everyone. If we can provide materials or programs dealing with soil and water stewardship, please let us know.
